Founded in 1984, **ARUP Laboratories** is a leading national reference laboratory and a nonprofit enterprise of the University of Utah and its Department of Pathology. We are a CAP-, ISO 15189-, and CLIA-certified diagnostic lab dedicated to providing our hospital and health system clients with unparalleled quality and service, and we continuously adapt to meet the ever-changing needs of the healthcare industry. Beyond quality testing, our goal is to continuously develop unique solutions that encompass the business of laboratory medicine and help community health systems remain cost-effective while improving patient care.

We believe in collaborating, sharing knowledge, and contributing to laboratory science in ways that provide the best value for the patient—it's why we exist; why we care; why we are an academic, nonprofit institution.

- The ARUP Institute for Clinical & Experimental Pathology® sector has validated or developed **3,000+ tests** and test combinations and publishes **~145 peer-reviewed articles** per year.
- ARUP's Institute for Learning provides **~85,000 continuing education credits** annually to clients, physicians, and laboratory professionals at no additional cost.
- ARUP has **100+ nationally and internationally recognized** pathologists, subspecialty-qualified clinicians, board-certified clinical scientists, clinical variant scientists, and genetic counselors available for consultation, interpretation, and collaboration with clients.
- We perform **99% of all testing on site**, processing an average of **70,000 specimens** of blood, body fluid, and tissue per day.
- Our **70+ labs**, jointly located on our **750,000-square-foot** main campus in Salt Lake City, Utah, provide all types of comprehensive testing, from routine screening tests to esoteric molecular and genetic assays.
- Our lab management experts offer **24+ types** of comprehensive, customized services and products focused on lab stewardship, outreach growth, and lab operations solutions at little to no cost to our clients.
