

Patient Age/Sex: 41 years Female

Specimen Collected: 12-Aug-25 10:40

Parathyroid Hormone, Intact with Calcium | Received: 12-Aug-25 10:40 Report/Verified: 12-Aug-25 10:41

Procedure	Result	Units	Reference Interval
Calcium for Parathyroid Hormone, Intact	12.3 [#]	mg/dL	[8.6-10.0]
Parathyroid Hormone, Intact	13 ^L ^{f1}	pg/mL	[18-59]

Result Footnote

f1: Parathyroid Hormone, Intact

Parathyroid hormone (PTH) reference intervals reflect expected values in normocalcemic, normophosphatemic individuals with optimal vitamin D concentrations; results should be interpreted concurrently.
