Giving members a smarter way to find the ideal in-network provider

It's not just about finding any provider. We want your employees to locate the *right* provider – one who fits their unique needs, schedule and budget.

That's why our Enhanced Provider Search on **eyemed.com** lets members search by:

- Network
- Proximity to home or office
- Hours of operation, including evenings and weekends
- Specialty services, such as retinal imaging or digital exams
- Available frame brands and products

And once they find their ideal provider, they can even schedule an appointment (at select locations) directly from our site. The experience of benefits made easy means less hassle and more time for your employees. Peace of mind for them – and for you.
