

Care right where it's needed.

With a Cigna HealthcareSM plan, you have access to more of what you want: Trusted providers and hospitals, and simpler, more affordable health care solutions.

No matter which plan you choose, as a Cigna Healthcare customer, you'll enjoy 24/7/365 customer support, quality service, and access to a variety of programs and resources to help you stay well.

PPO

A Preferred Provider Organization (PPO) is a health plan that offers a large network of participating providers so you have a range of doctors and hospitals to choose from. With a PPO plan, you have access to Utah's largest network of doctors, specialists and hospitals. There are no referrals required for PPO plans.

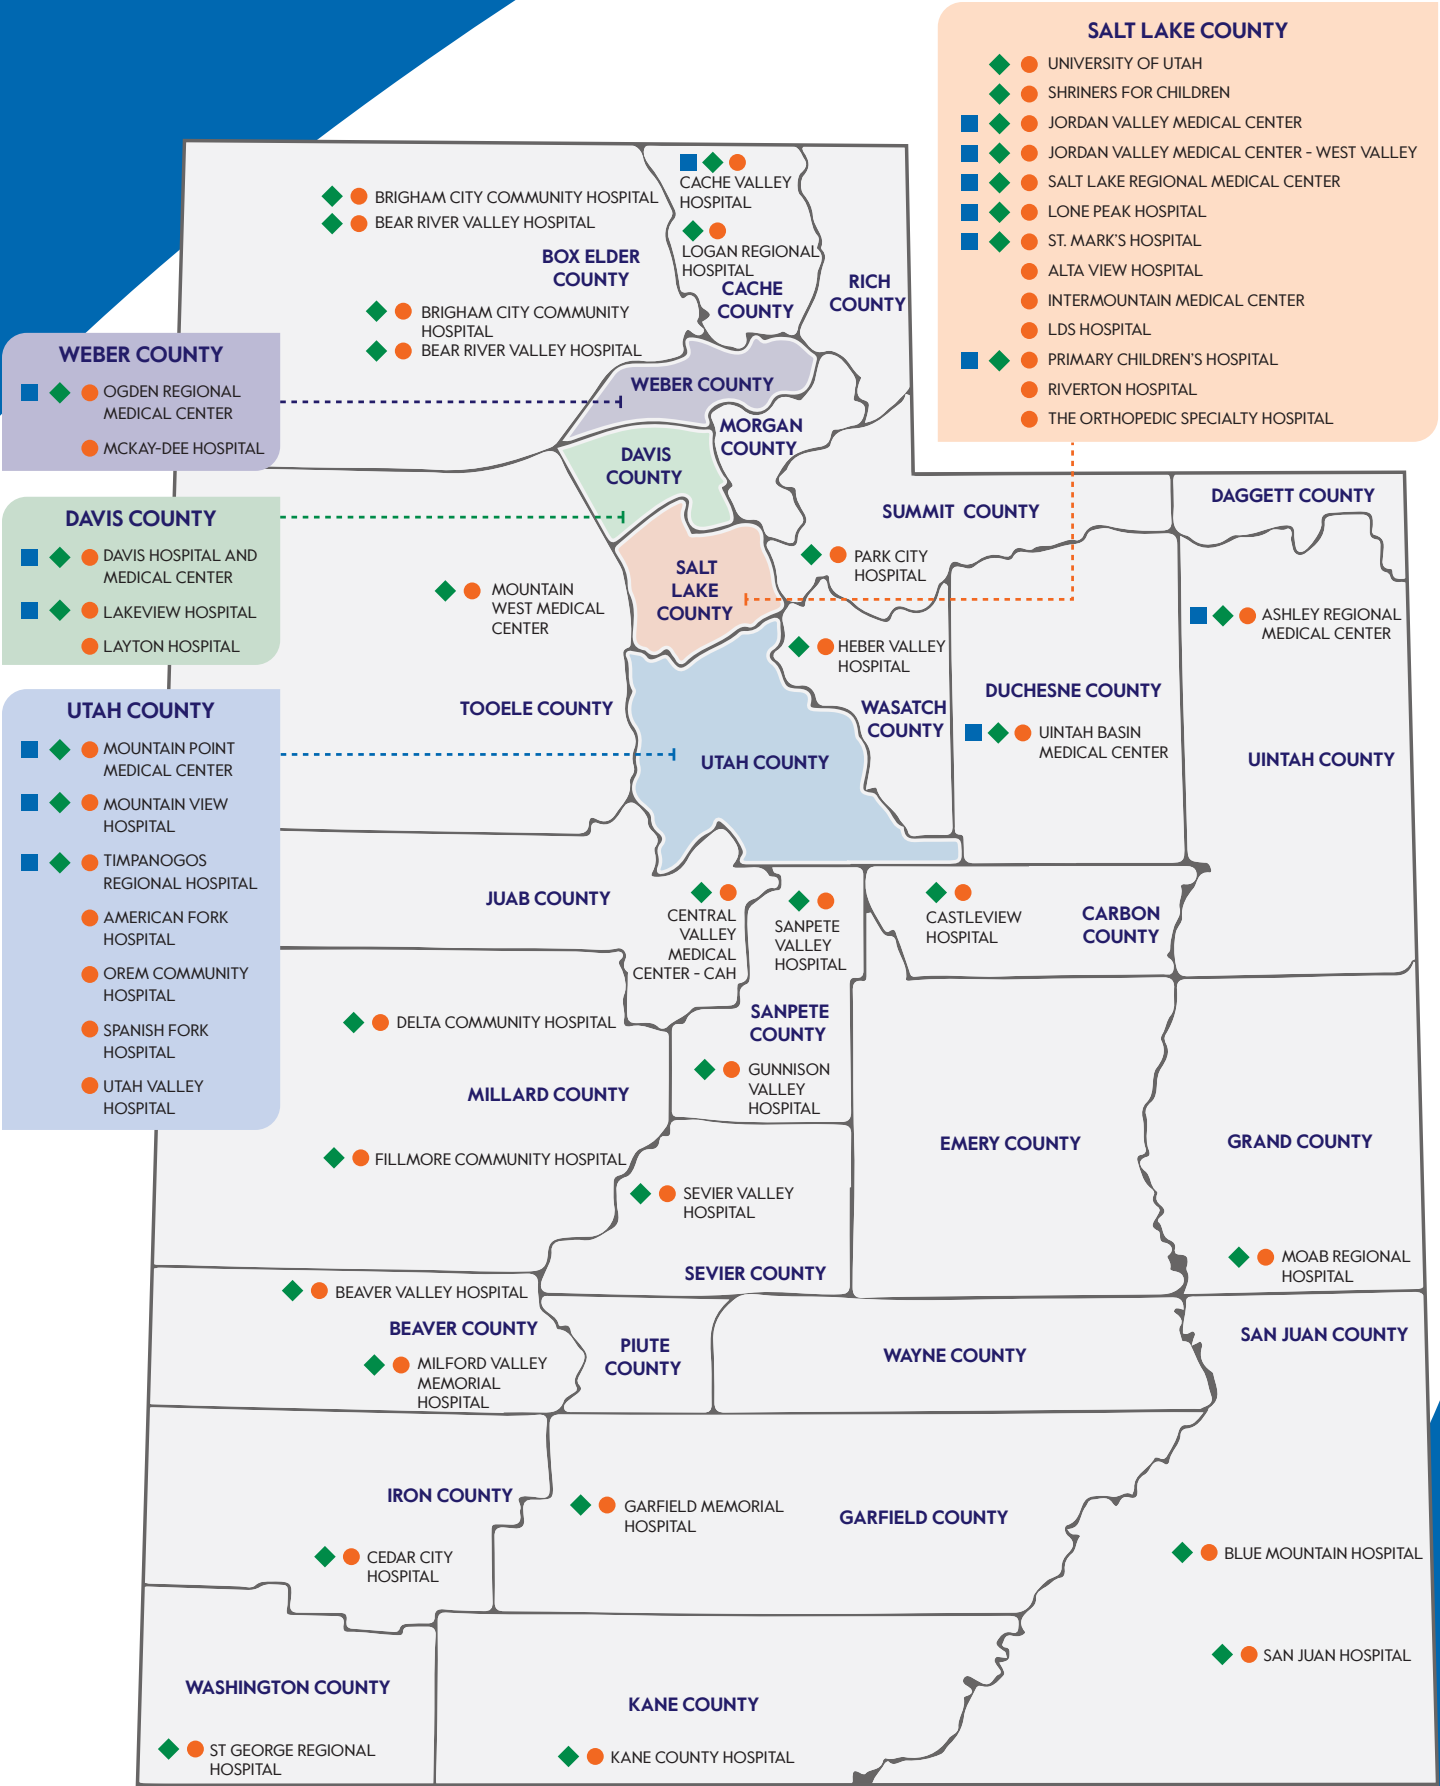

Open Access Plus (OAP)

Utah's most elected network, Open Access Plus (OAP), makes it easy to get quality, in-network care with access to a large, national network of providers. Plus, you have the option to choose a primary care provider to coordinate your care, and you don't need specialist referrals.

LocalPlus

LocalPlus[®] provides access to a network that is limited to local quality doctors, specialists and hospitals right where you live. The plans, aligned to the LocalPlus Network, help you save money by giving you access to the right mix of health care benefits at the right price.
