ARUP Laboratories is a leading national reference laboratory and nonprofit enterprise of the University of Utah and its Department of Pathology. We are a CAP-, ISO 15189-, and CLIA-certified diagnostic lab dedicated to providing our hospital and health system clients with unparalleled quality and service, and we continuously adapt to meet the ever-changing needs of the healthcare industry. Beyond quality testing, our goal is to develop unique solutions that encompass the business of laboratory medicine and help community health systems remain cost-effective.

We believe in collaborating, sharing knowledge, and contributing to laboratory science to continuously improve patient care—it's why we exist; why we care; why we are an academic, nonprofit institution.

- We perform **99% of testing on-site**. Our **70+ labs**, located on our **750,000-square-foot** main campus in Salt Lake City, provide comprehensive testing, from routine screening tests to esoteric molecular and genetic assays.
- The ARUP Institute for Clinical and Experimental Pathology® has validated or developed **3,000+ tests** and test combinations and publishes about **145 peer-reviewed articles** per year.
- ARUP has **150+ nationally and internationally recognized** pathologists, subspecialty-qualified clinicians, board-certified clinical scientists, clinical variant scientists, and genetic counselors available for consultation, interpretation, and collaboration with clients.
- ARUP's **Innovation Business Unit** partners with biotech and pharma partners to accelerate early-stage technologies (e.g., custom assay development, clinical trials, companion and in vitro diagnostics) into commercially viable solutions.
- Our lab management consultants offer **24+ types** of comprehensive, customized services and products focused on lab stewardship, outreach growth, and lab operations solutions at little to no cost to our clients.
- From the ARUP Institute for Learning, clients, physicians, and laboratory professionals earn approximately **145,000 continuing education credits** annually, at no cost.
