Act on the Data You Have Now

With the AnalyticsDx™ Sendout dashboard, you no longer have to wait for critical healthcare analytics.

This real-time dashboard allows you to monitor utilization trends and interventions over time; benchmark your healthcare facilities' test utilization; compare physician ordering to identify utilization outliers; and quickly determine annual or monthly sendout spend.

Features

Sort tests by cost or volume.

Search by ARUP test number, test name, or physician name.

Filter by commonly misordered or generally preferred testing.

View tests by ARUP Consult category or utilization topic.

Review integrated best practices and utilization topics.

ARUP LABORATORIES

A nonprofit enterprise of the University of Utah and its Department of Pathology
